Water, sewer and gas utilities lay the very foundation for any worksite and are crucial to the safety and longevity of a new facility. Russo Development has decades of experience creating and maintaining these critical systems for private and municipal clients. By using the latest industry equipment, including high density polyethylene pipe welding we aim to prevent leakage, improve installation efficiency and save our clients money, long term.

Local municipalities throughout Western New York have entrusted Russo Development with their utility service projects for many years. We are proud to be known as a trusted provider of water, sanitary sewer, storm sewer and gas system installations.

Russo is a trusted partner when service and experience are the key to your success.

Acquire peace of mind knowing your project is being handled by the leading professionals in the Buffalo area. We offer risk-free quotes for all projects. Contact us today at 716-844-8745.
